

The Legal Aid Society of Northeastern New York stands for a just America. We want our country to stop the attacks against all our neighbors, family and friends, including our clients.

We mourn and condemn the recent and continuing acts of hate and murder against Asian American and Pacific Islanders. We will continue to fight for racial and gender equality alongside our AAPI communities and all our other partners.

Our mission embodies this commitment to a society which is **inclusive** and **equitable** for all. We will always use the law to “address individual and systemic wrongs and inequities” and to ensure **fairness, dignity and justice** for those living in poverty.

**None of us are free until we all are.**
